

Polysulfated Glycosaminoglycan, injectable (Adequan®)

Drs. Foster & Smith Educational Staff

Polysulfated glycosaminoglycans (PSGAGs) are used in the management of degenerative (non-infectious) or traumatic arthritis. This medication is given by injection. Contact your veterinarian if your pet experiences bleeding tendencies, dark or tarry stools, or worsening of joint pain, swelling, or lameness while being treated with polysulfated glycosaminoglycans.

Keep this and all other medications out of the reach of children and pets.

If you think your pet has been poisoned...

Contact your veterinarian or one of the Animal Poison Hotlines (listed below) if you think your pet may have accidentally received or been given an overdose of the medication.

**ASPCA Animal Poison Control Center - 24-hour service available throughout North America.

www.aspca.org/poison

1-888-4ANI-HELP (1-888-426-4435). \$65.00 per case, billed to caller's credit card.
